Please note the word 'child' in this guide refers to children of all ages (toddler, preschooler, primary and high school). The information set out in this guide is of a general nature only and not exhaustive on the subject matter. You should consider whether the information is appropriate to the needs of the child you support and your circumstances. This guide should not be used as a diagnostic tool. When implementing any recommendations contained in this guide, exercise independent skill and judgement. If you have any concerns about your child's behaviours, please discuss them with a doctor who can provide guidance and/or a referral to the relevant professional.

ABOUT THE AUTHOR

Hi there,

I am Dolly Bhargava. I have completed a Bachelor of Applied Science in Speech Pathology from the University of Sydney, a Master of Special Education from the University of Newcastle, and Certificate IV in Training and Assessment.

Midway through my career I realised my passion was in supporting children, adolescents and adults with emotional and behavioural difficulties (EBD). So I started working extensively with individuals with EBD in a variety of contexts such as family homes, childcare centres, preschool, schools, respite care, post school options, employment services and corrective services.

I have created this series based on the practical wisdom I have gathered from working with individuals with EBD, their families, educators and professionals over the last 21 years. I hope this guide equips people with the knowledge, skills and tools to help your child learn positive ways of behaving and managing their emotions.

Dolly Bhargava
